

→ **SENTINEL-2 FOR SCIENCE WORKSHOP**

Session Summary

Methodologies, Techniques and Cal/Val

Reminders:

- S2 L1C freely accessible
- S2 Toolbox
- Avoid delays in S2B launch for 5 days repetitivity

Recommendations :

- Centralised CAL/VAL monitoring for the duration of Sentinel Program, coordinated by ESA
- Coordinate collection and distribution of a corpus of reference data for validation and training
- EU and Worldwide easy and fair data access / Thematic Exploitation platforms (cloud style)
- Operational production of Level 2A would be welcome (comparison exercises to develop community accepted best practices)
- Tools and techniques to favour seamless use of Landsat and Sentinel-2 series / cropping mosaicking and compositing
