

**Sentinel-2 for Science Workshop**  
**ESA-ESRIN, Frascati, Italy**  
**20 - 22 May 2014**

Information for Presenters

Instructions for Oral Presenters

You have been reserved a 20 minute slot for your oral presentation, including the time for possible questions. This is a very strict schedule and demands that presenters are actually ready to present on time. Please make sure your presentation does not exceed the designated time, the chairpersons of the session are obliged to enforce the timing, and to cut your presentation short if necessary so the workshop stays on schedule. Please upload your presentation well before the start of the session in Room 0, Bld. 14 (see Uploading of presentations below for details).

Please identify yourself to the session chairmen before the start of the session so that they can verify the accuracy of the programme.

Instructions for Poster Presenters

The Poster Sessions will last for two days, starting on Tuesday 20/05/2014 from 18:50 – 20:50 and continue on the second day Wednesday 21/05/2014 from 17:20 – 19:20.

Please check from the number of the panel from the poster lists inside the room, where your poster has been placed. The posters are grouped according to the topic- please mount your poster on the space that has been reserved for you. Numbers on the poster panels indicate where each poster belongs.

Mounting of posters starts on Tuesday morning and we trust all the posters will be placed by the beginning of the Poster Session. All the posters should be taken down immediately after the Poster Session ends on Wednesday 21 May 2014 evening.

Uploading of Presentations

It is your responsibility as a presenter to check and ensure well before the start of your session that the correct version of your presentation has been uploaded on our computers by using the PC in Room 0, Bld. 14. The presentations must be uploaded using the computer situated in the Room 0 and not using the presentation computer in the BIG Hall. Support personnel will be present in Room 0 to help you with this process.

### About the Programme

Due to last minute cancellations the paper programme is not necessarily completely up-to-date. The current program will be displayed during the session breaks, and is available on-line at:

[http://seom.esa.int/S2forScience2014/page\\_programme.php](http://seom.esa.int/S2forScience2014/page_programme.php)

### About the Proceedings

The Proceedings of Sentinel-2 for Science WS, will be published by ESA as Special Publication SP-726 on a CD-ROM.

Authors must deliver their full papers via the following address: [esapub@gmail.com](mailto:esapub@gmail.com) , at the latest, one day after the end of the workshop on Friday the 23rd of May 2014. This can be done also via the workshop computer in Room 0.

Please visit <http://seom.esa.int/S2forScience2014/index.php>

where you can find the Author Instructions and further information about SP-726.

Wishing you a fruitful and stimulating Sentinel-2 for Science workshop,

The Sentinel-2 for Science OrganisingTeam
